

LUDOVIC CHEVET
LEAD SUPPLY CHAIN MANAGER
AIRBUS

Ludovic is Lead Supply Chain and Quality Manager for Large Aircraft Propulsion department within procurement operation. In his role Ludovic is accountable for On-Time and on Quality deliveries for A330neo Power Plant System. He is acting as the main interface between internal stakeholders (Airbus Programs, Airbus Final Assembly Line) and the supply chain. On top of that Ludovic is also leading cross-program supplier quality improvement projects such as “Human Factors”.

Before being involved in supply chain management, Ludovic has had diverse experiences within Airbus Engineering: 4 years as program manager for A400M Cockpit Layout, Equipment and Systems, 8 years as project manager for system development and integration on A380, A350 and A400M.
