

SUPPLIER FORUM

Wednesday, 10 April 2019 – 8:00 a.m. – 4:30 p.m.

Avon Old Farms Hotel · 279 Avon Mountain Road · Avon CT 06001

Plan now to attend the AESQ Supplier Forum to learn more about key work streams led by the SAE G-22 Aerospace Engine Supplier Quality (AESQ) Technical Committee to standardize supplier requirements. Take advantage of this opportunity, as a key supply chain stakeholder, to provide your feedback to the AESQ leadership.

This event is hosted by the Aerospace Engine Supplier Quality Strategy Group and is supported by **SENIOR LEADERSHIP** from AESQ member companies:

VOICE OF THE CUSTOMER AND AESQ SPEAKERS

VoC - Richard Gallagher

SUPPLIER QUALITY LEADER

Boeing

VoC - Ludovic Chevet

LEAD SUPPLY CHAIN MANAGER

Airbus

Martin Schaeffner

SR VP CORPORATE QUALITY

MTU Aero Engine

Ian Riggs

CIVIL AEROSPACE QUALITY EXECUTIVE

Rolls-Royce plc

Barbara Negroe

EXECUTIVE SOURCING QUALITY LEADER

GE Aviation

Olivier Castets

SUPPLIER QUALITY EXECUTIVE

Safran

Barrie Hicklin

SR MANAGER GLOBAL AUDIT PROGRAMS

Honeywell

Dan Eigenbrode

VP MODULE CENTERS AND SUPPLIER QUALITY

Pratt & Whitney

Helen Djaknegren

DIRECTOR GLOBAL SUPPLIER QUALITY & DEVELOPMENT

GKN Aerospace

BACKGROUND

Aerospace engine suppliers consistently voice concerns that quality requirements vary greatly between their customers, either flowed directly from engine manufacturers or through higher tier suppliers of engine manufacturers. Although these requirements have a common end goal, the different approaches drive significant inefficiency and risk as well as making it more difficult for a supplier to maintain compliance. Given this feedback, in 2012 a dialogue began between engine manufacturers to

gauge interest in developing a harmonized set of standards for the aerospace engine supply chain. This dialogue led to the formation of the SAE G-22 Technical Committee aligned under SAE International and chartered with the development of common Aerospace Engine Supplier Quality standards and later to the creation of the AESQ Strategy Group under the SAE ITC. The AESQ has released six standards to date, and three more are in the draft stages.

KEY AGENDA TOPICS

- Challenges within the Aerospace Engine Supply Chain
- AESQ Strategy & Vision
- AESQ Standards – Application in the Product Life Cycle & Quality Systems
- The Benefits of a Common Approach to Quality
- AESQ Marketplaces – 5 Workstreams Up Close
 - AS13004 Process FMEA & Control Plans
 - AS13003 Measurement System Analysis
 - AS13006 Process Control Methods
 - AS13002 Inspection Frequency
 - AS13000 Problem Solving
- Future Initiatives: Audit, Supplier Management & Human Factors
- Q&A

BENEFITS OF ATTENDING

- Be part of the development and discussion on key issues critical to aerospace
- Learn about new developments
- Customer Satisfaction and quantifiable gains
- Network with industry leaders and your peers and be part of the solution

WHO SHOULD ATTEND?

- Sr. Manufacturing Engineering Leaders
- Sr. Quality Management Leaders
- Sr. Operations Management

SECURE YOUR SPACE TODAY

Attendance is free and includes refreshments and lunch. A limited number of seats are available. Please register early at the following link: <https://aesq.sae-itc.com/content/aesq-supplier-forum-0>

If you are not available, please share this invitation with another person within your organization.

SURVEY

After registering, please complete the AESQ Supplier Forum Survey located at: <https://www.surveymonkey.com/r/SupplierForumApril2019>

HOTEL AND REGISTRATION

For complete details including location, hotel reservations, and Supplier Forum registration, please visit the AESQ website at: <https://aesq.sae-itc.com/content/aesq-supplier-forum-0>

QUESTIONS

For further information on this event please contact Becky Lemon at rebecca.lemon@sae.org.
